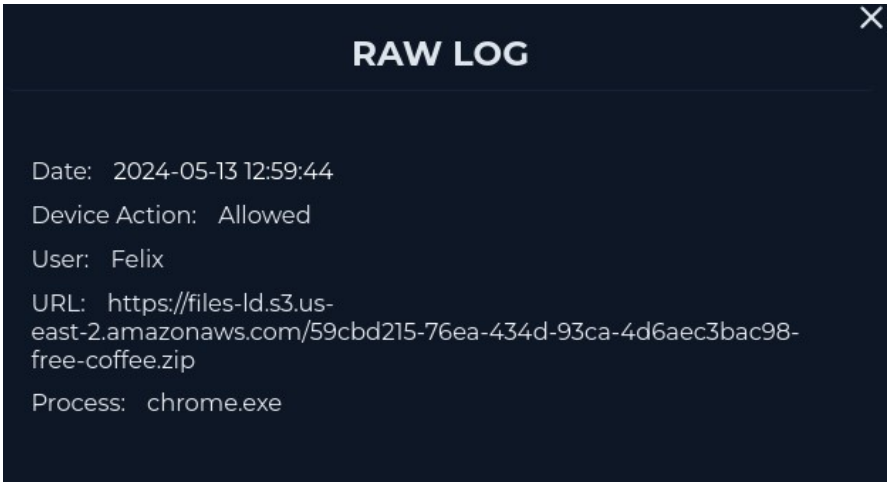
| DATE | TYPE | SRC ADDRESS | SRC PORT | DEST. ADDRESS | DEST. PORT | RAW |
|---|---|---|---|---|---|---|
| May, 13, 2024, 09:20 AM | Exchange | 103.80.134.63 | 45078 | 172.16.20.3 | 25 | |

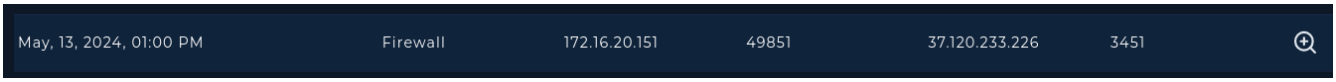
RAW LOG

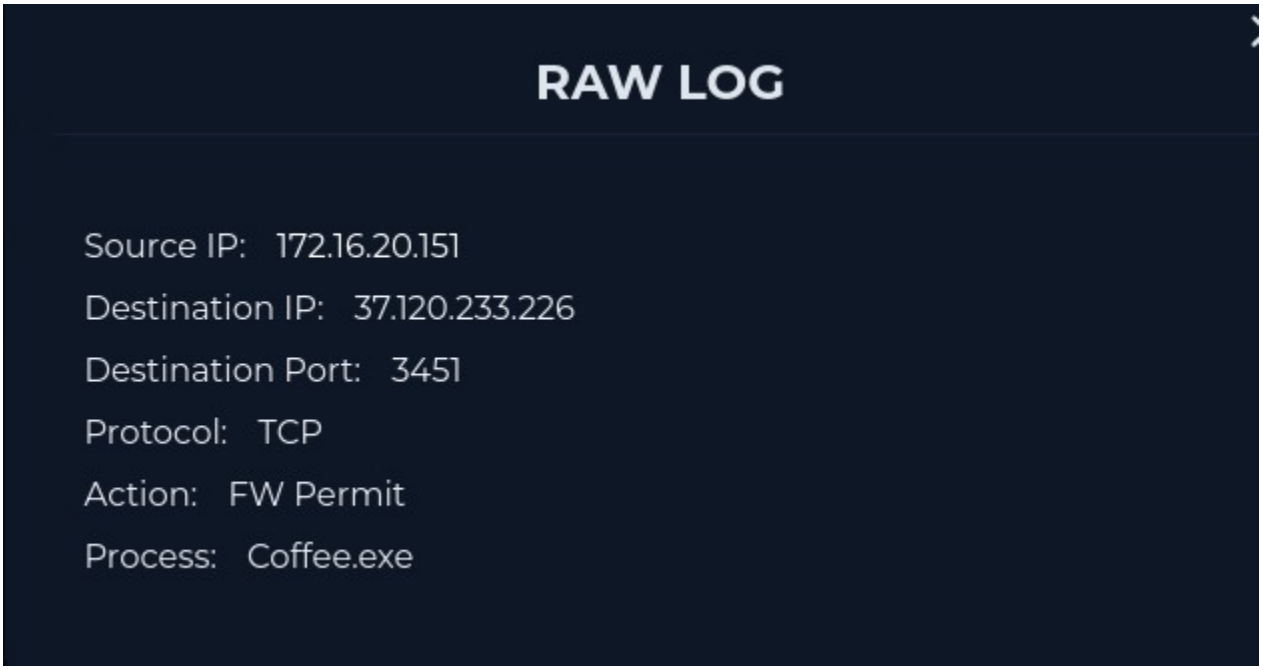
Sender Mail: free@coffeeshooop.com
Destination Mail: Felix@letsdefend.io

At the same day at May, 13, 2024, 12:59 PM Felix opened the email and open url that send in the email , the url that felix open contain zip files.



And then at May, 13, 2024, 01:00 PM felix install the application from zipfile . File that felix install is coffee.exe and the destination IP from coffee.exe is suspicious.





At the same time after coffee.exe successfully install in felix device there is a procces that bring up Image hash after I check the hash in virustotal that hash is suspious that indicated backdoor and spyware
